Response to Amendment

The present Office action responds to Appeal Brief filed 01 July 2004.

Claims 1-46 are pending.

Allowable Subject Matter

1. Claims 1-46 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1, 18, 21, 38, 41, and 46, the Prior art does not teach or suggest, alone or in combination *dynamic selection* of zones in a *central processing complex* (CPC). Regarding the prior art of record, Wright does not teach or suggest dynamic selection of a zone, since this zone is predetermined in the reference. The secondary reference, Tarui et al., teaches dynamic allocation of shared memory. Examiner agrees with Applicant's argument that dynamic allocation of shared memory is not equivalent to dynamic selection of a zone in a CPC. The process of *allocating*, as presented by the prior art is not comparable, related or analogous to the process of *selecting* a zone.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
